Do you need any pet food, prescription refills, or heartworm or flea preventative?

Would you like any of the following extra treatments for you pet today?

(please check your requests, receptionist can quote charges that may apply)

Microchip Nail Trim Bath Other _____

For the protection of our patients and staff, **all pets dropped off must be current on their Rabies vaccination.** Pets that are overdue will be given this vaccination at their owner's expense. We also strongly recommend the following vaccinations:

Dogs: DHP/PV (Distemper, Hepatitis, Parvovirus and Parainfluenza) and Bordetella

Cats: FVRCP (Feline Viral Rhinotracheitis, Calicivirus, Panleukopenia)

Animals that are not current on these vaccinations can still be dropped off, and we will attempt to limit their exposure to other patients. However, **you assume the risk involved if your pet becomes ill, and Novey Animal Hospital is not responsible for the cost of any medical treatment that may be needed.**

If the vaccinations were done elsewhere, your signature below will authorize us to call that veterinary hospital to verify the dates.

All pets entering the hospital are thoroughly checked for fleas. All pets found to have fleas will be given a Capstar, which is a pill that kills fleas on your pet for 24 hours. The cost ranges from \$3-\$4 depending on your pet's weight.

Please sign below to acknowledge the policies above.
